

# Milk Room

For those who enjoy a unique and intimate beverage experience, Milk Room is notable for its past as a Prohibition-era speakeasy (when everyone just drank “milk” there, of course). Its doors are just two of the 82 rebuilt and restored colored art glass panels throughout the hotel.

The Milk Room focuses on classic, spirit-forward cocktails that utilize extremely rare, vintage spirits and hard to find ingredients, curated by LSD beverage director Paul McGee.

The Milk Room offers an intimate experience for up to 10 guests seated or 12 standing. We offer three different buyout time slots that are each two hours in duration beginning at 5pm, 7:30pm or 10pm.
